## Independent Auditors' Report on Review of Interim Condensed Consolidated Financial Statements

To the Shareholders of Bank AlJazira  
(A Saudi Arabian Joint Stock Company)

### **Introduction**

We have reviewed the accompanying interim condensed consolidated statement of financial position of Bank AlJazira (the "Bank") and its subsidiaries (collectively referred to as the "Group") as at 30 June 2019 and the related interim condensed consolidated statements of income and comprehensive income for the three month and six month periods then ended and the interim condensed consolidated statements of changes in equity and cash flows for the six month period then ended and the notes which form an integral part of these interim condensed consolidated financial statements. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34, "Interim Financial Reporting" ('IAS 34') as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

### **Scope of review**

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" as endorsed in the Kingdom of Saudi Arabia. A review of interim condensed consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing ('ISAs'), that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34 as endorsed in the Kingdom of Saudi Arabia.

### **Other regulatory matter**

As required by SAMA, certain capital adequacy information has been disclosed in note 18 of the accompanying interim condensed consolidated financial statements. As part of our review, we compared the information in note 18 to the relevant analysis prepared by the Bank for submission to SAMA and found no material inconsistencies.

## NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) AT 30 JUNE 2019 (CONTINUED)

---

### 2. BASIS OF PREPARATION

The interim condensed consolidated financial statements of the Group as at and for the period ended 30 June 2019 have been prepared in accordance with International Accounting Standard 34 Interim Financial Reporting (“IAS 34”) as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organisation for Certified Public Accountants (“SOCPA”).

The consolidated financial statements of the Group as at and for the period and year ended 31 March 2019 and 31 December 2018, respectively, were prepared in compliance with the IAS 34 and the International Financial Reporting Standards (“IFRS”) respectively, as modified by SAMA for the accounting of Zakat and income tax (relating to the application of IAS 12 – “Income Taxes” and IFRIC 21 – “Levies” so far as these relate to Zakat and income tax) and the Banking Control Law and the Regulations for Companies in the Kingdom of Saudi Arabia.

On 17 July 2019, SAMA instructed the banks in the Kingdom of Saudi Arabia to account for the Zakat and income taxes in the statement of income. This aligns with the IFRS as endorsed in the Kingdom of Saudi Arabia and other standards and pronouncements issued by the Saudi Organisation for Certified Public Accountants (“SOCPA”) (collectively referred to as “IFRS as endorsed in KSA”).

Accordingly, the Group changed its accounting treatment for Zakat and income tax by retrospectively adjusting the impact in line with International Accounting Standard 8 Accounting Policies, Changes in Accounting Estimates and Errors (as disclosed in note 4 and the effects of this change are disclosed in note 4 to the interim condensed consolidated financial statements).

The Group also prepares its consolidated financial statements to comply with the Banking Control Law and the Regulation for Companies in the Kingdom of Saudi Arabia and the Bank’s By-laws. These interim condensed consolidated financial statements do not include all of the information required for full annual financial statements, and should be read in conjunction with the Group’s annual consolidated financial statements for the year ended 31 December 2018.

The preparation of interim condensed consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these interim condensed consolidated financial statements, significant judgments made by the management in applying the Group’s accounting policies and the key sources of estimation were the same as those that were applied to the consolidated financial statements as at and for the year ended 31 December 2018. The Group has applied accounting policies retrospectively except as disclosed under Note 4.

These interim condensed consolidated financial statements are expressed in Saudi Arabian Riyals (SR) and are rounded off to the nearest thousands except where otherwise stated.

## NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) AT 30 JUNE 2019 (CONTINUED)

---

### 3. BASIS OF CONSOLIDATION

These interim condensed consolidated financial statements comprise the financial statements of Bank AlJazira and its subsidiaries as set out in Note 1. The financial statements of the subsidiaries are prepared for the same reporting period as that of the Bank.

The interim condensed consolidated financial statements have been prepared using uniform accounting policies and valuation methods for like transactions and other events in similar circumstances. The accounting policies of subsidiaries have been changed when necessary to align them with the policies adopted by the Group.

#### a) Subsidiaries

Subsidiaries are entities which are controlled by the Bank. The Bank controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. To meet the definition of control, all of the following three criteria must be met:

- i. the Group has power over an entity;
- ii. the Group has exposure, or rights, to variable returns from its involvement with the entity; and
- iii. the Group has the ability to use its power over the entity to affect the amount of the entity's returns.

The Group re-assesses whether or not it controls an investee in case facts and circumstances indicate that there are changes to one or more of the criteria of control.

Subsidiaries are consolidated from the date on which control is transferred to the Bank and cease to be consolidated from the date on which the control is transferred from the Group. The results of subsidiaries acquired or disposed of during the period, if any, are included in the interim condensed consolidated statement of income from the date of the acquisition or up to the date of disposal, as appropriate.

#### b) Non-controlling interests

Non-controlling interests represent the portion of net income and net assets of subsidiaries not owned, directly or indirectly, by the Group in its subsidiaries and are presented separately in the interim condensed consolidated statement of income and within equity in the interim condensed consolidated statement of financial position, separately from the Bank's equity. Any losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance. Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

#### c) Transactions eliminated on consolidation

Balances between the Group entities, and any unrealized income and expenses arising from intra-group transactions, are eliminated in preparing the interim condensed consolidated financial statements. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

### 3. BASIS OF CONSOLIDATION (continued)

#### d) Investment in an associate

Associates are entities over which the Group exercises significant influence. Investments in associates are initially recognized at cost and subsequently accounted for under the equity method of accounting and are carried in the interim condensed consolidated statement of financial position at the lower of the equity-accounted value or the recoverable amount.

Equity-accounted value represents the cost plus post-acquisition changes in the Group's share of net assets of the associate (share of the results, reserves and accumulated gains/ (losses) based on the latest available financial information) less impairment, if any.

After application of the equity method, the Group determines whether it is necessary to recognise an additional impairment loss on its investment in its associates. The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount in 'share in net income / (loss) of an associate' in the interim condensed consolidated statement of income.

The previously recognized impairment loss in respect of investment in associate can be reversed through the interim condensed consolidated statement of income, such that the carrying amount of the investment in the interim condensed consolidated statement of financial position remains at the lower of the equity-accounted (before allowance for impairment) or the recoverable amount.

Unrealized gains and losses on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates.

### 4. IMPACT OF CHANGES IN ACCOUNTING POLICIES

The accounting policies used in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2018, except for:

#### I. IFRS 16 Leases

The Group adopted IFRS 16 'Leases' the standard replaces the existing guidance on leases, including IAS 17 'Leases', IFRIC 4 'Determining whether an Arrangement contains a Lease', SIC 15 "Operating Leases – Incentives" and SIC 27 "Evaluating the Substance of Transactions in the Legal Form of a Lease".

IFRS 16 was issued in January 2016 and is effective for annual periods commencing on or after 1 January 2019. IFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under IAS 17. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less).

### 4. IMPACT OF CHANGES IN ACCOUNTING POLICIES (continued)

#### I. IFRS 16 Leases (continued)

At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees are required to separately recognise the special commission expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees are also required to re-measure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognise the amount of the re-measurement of the lease liability as an adjustment to the right-of-use asset.

Lessor accounting under IFRS 16 is substantially unchanged from today's accounting under IAS 17. Lessors will continue to classify all leases using the same classification principle as in IAS 17 and distinguish between two types of leases: operating and finance leases.

The Group has decided to apply the modified retrospective approach in adopting IFRS 16. In the modified retrospective approach, the comparable figures for the previous periods are not adjusted and all adjustments effects as of 1 January 2019. Upon initial application, the Group has also decided to recognise right-of-use assets corresponding to the lease liabilities with adjustment of prepaid and accrued rent to right-of-use asset. This has therefore not resulted in any impact on equity as of 1 January 2019. The Group has elected to apply the standard to contracts that were previously identified as leases applying IAS 17 and IFRIC 4. The Group has therefore not applied the standard to contracts that were not previously identified as containing a lease applying IAS 17 and IFRIC 4.

The Group has elected to use the exemptions proposed by the standard on lease contracts for which the lease terms ends within 12 months as of the date of initial application, and lease contracts for which the underlying asset is of low value. The Group has leases of certain equipments (i.e., POS terminals and notes counting machines) that are considered of low value. Group has also elected to use the following practical expedients that are available under modified retrospective approach:

- Leases with a short remaining term
- Discount rates

The effect of adoption IFRS 16 is as follows:

#### Impact on the statement of financial position (increase / (decrease)) as at 1 January 2019:

Assets	SR '000
Property and equipment, net (right of use assets)	470,563
Other assets (prepaid rent)	(43,934)

### 4. IMPACT OF CHANGES IN ACCOUNTING POLICIES (continued)

#### I. IFRS 16 Leases (continued)

Due to the adoption of IFRS 16, the Group's operating profit will deteriorate in initial years due to front loading of special commission expense however profit will improve in later years as the special commission expense reduces due to reduction in lease liability. This is due to the change in the accounting for expenses of leases that were classified as operating leases under IAS 17.

IFRS 16 transition disclosures also requires the Group to present the reconciliation of the off-balance sheet lease obligations as of 31 December 2018 with the lease liability as per IFRS 16 on the date of initial application as of 1 January 2019 which is as follows:

#### Reconciliation of lease liabilities

	2019 (SR' 000)
Operating lease commitments disclosed as at 31 December 2018	447,970
Impact of termination options and related escalation not previously recognised	66,748
Operating lease commitments disclosed as at 31 December 2018 - adjusted	514,718
Discounted using the Bank's incremental borrowing rate of at the date of initial application	(68,720)
Short-term leases recognised on a straight-line basis as expense	(1,065)
Low-value leases recognised on a straight-line basis as expense	(18,304)
Lease liability recognised as at 1 January 2019	426,629

#### Amounts recognised in the statement of financial position and statement of income

Set out below, are the carrying amounts of the Group's right-of-use assets and lease liabilities and the movements during the period:

	Right of Use assets			Total	Lease liabilities

#### III. Deferred tax

The financial impact of adoption of accounting policy for deferred tax is not material to the interim condensed consolidated financial statements, therefore prior period amounts have not been restated. As required under IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors, the balances as of 1 January 2018 were not presented in the statement of financial position as change in the accounting policy has not resulted in restatement of the amounts relating to year ended 31 December 2017.

### 5. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies, estimates and assumptions used in the preparation of these interim condensed consolidated financial statements are consistent with those used in the preparation of the annual consolidated financial statements for the year ended 31 December 2018 except for the policies explained below. Based on the adoption of new standards and changes in accounting treatment of Zakat and income tax explained in note 4, the following accounting policies are applicable effective 1 January 2019 replacing / amending or adding to the corresponding accounting policies set out in 2018 financial statements. The accounting policies as disclosed in annual consolidated financial statements for the year ended 31 December 2018 will continue to apply for comparatives disclosed in these interim condensed consolidated financial statements except for presentation of Zakat and income tax.

#### Right of use asset / lease liabilities

On initial recognition, at inception of the contract, the Group shall assess whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is identified if most of the benefits are flowing to the Group and the Group can direct the usage of such assets.

#### Right of use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities for lease modifications. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right-of-use assets are subject to impairment.

#### Lease liability

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including insubstance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs.

### 5. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### **Lease liability (continued)**

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is re-measured if there is a modification, a change in the lease term, a change in the substance fixed lease payments or a change in the assessment to purchase the underlying asset.

#### **Short-term leases and leases of low-value assets**

The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered of low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

#### ***(Policy applicable before 1 January 2019)***

Before 1 January 2019, the Bank's accounting policy for accounting of leases where the Group was a lessee was as follows:

*Leases entered into by the Group as a lessee are all operating leases. Payments made under operating leases are charged to the consolidated statement of income on a straight-line basis over the period of the lease.*

*When an operating lease is terminated before the lease period has expired, any payment required to be made to the lessor by way of penalty, net of anticipated rental income (if any), is recognised as an expense in the period in which the termination takes place.*

#### **Change in the accounting for Zakat and income tax:**

As mentioned in note 2, the basis of preparation has been changed for the period ended 30 June 2019 as a result of the issuance of latest instructions from SAMA dated 17 July 2019. Previously, Zakat and income tax were recognized in the statement of changes in equity as per the SAMA circular no 381000074519 dated 11 April 2017. With the latest instructions issued by SAMA dated 17 July 2019, the Zakat and income tax shall be recognized in the statement of income. The Group has accounted for this change in the accounting for Zakat and income tax retrospectively (see note 2 and the effects of the above change are disclosed in note 4 to the interim condensed consolidated financial statements). The change has resulted in reduction of reported income of the Group for the period ended 30 June 2018 by SR 17.935 million. The change has had no impact on the statement of cash flows for the period ended 30 June 2018.

### 5. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### **Income tax**

The income tax expense or credit for the period is the tax payable on the current period's taxable income, based on the applicable income tax rate, adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Bank and its subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities.

Adjustments arising from the final income tax assessments are recorded in the period in which such assessments are made.

#### **IFRIC Interpretation 23 Uncertainty over Income Tax Treatment**

The Interpretation addresses the accounting for income taxes when tax treatments involve uncertainty that affects the application of IAS 12 Income Taxes. It does not apply to taxes or levies outside the scope of IAS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments. The Interpretation specifically addresses the following:

- Whether an entity considers uncertain tax treatments separately;
- The assumptions an entity makes about the examination of tax treatments by taxation authorities;
- How an entity determines taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates; and
- How an entity considers changes in facts and circumstances

An entity has to determine whether to consider each uncertain tax treatment separately or together with one or more other uncertain tax treatments. The approach that better predicts the resolution of the uncertainty needs to be followed.

The Group applies significant judgement in identifying uncertainties over income tax treatments.

Upon adoption of the Interpretation, the Group considered whether it has any uncertain tax positions, particularly those relating to transfer pricing. The Bank's and the subsidiaries' tax filings may include deductions related to transfer pricing and the taxation authorities may challenge those tax treatments. The Group determined, based on its tax compliance and transfer pricing study that it is probable that its tax treatments (including those for the subsidiaries) will be accepted by the taxation authorities. The Interpretation did not have an impact on the consolidated financial statements of the Group.

## NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) AT 30 JUNE 2019 (CONTINUED)

### 5. SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Deferred income tax

Deferred income tax is provided using the liability method on temporary differences arising between the carrying amounts of assets and liabilities for financial reporting purposes and amounts used for the taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amounts of assets and liabilities using the tax rates enacted or substantively enacted at the reporting date. A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available and the credits can be utilized. Deferred tax asset is reduced to the extent that it is no longer probable that the related tax benefits will be realized.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in foreign operations where the Group is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and where the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognized.

#### Zakat

The Group is subject to Zakat in accordance with the regulations of the General Authority of Zakat and Income Tax ("GAZT"). Zakat expense is charged to the profit or loss. Zakat is not accounted for as income tax and as such no deferred tax is calculated relating to Zakat.

### 10. DERIVATIVES

#### 10.1 Nature/type of derivatives held

In the ordinary course of business, the Group utilizes the following derivative financial instruments for both trading and strategic hedging purposes:

##### a) Swaps

Swaps are commitments to exchange one set of cash flows for another. For special commission rate swaps, counterparties generally exchange fixed and floating rate commission payments in a single currency without exchanging principal. For cross-currency commission rate swaps, principal, fixed and floating commission payments are exchanged in different currencies.

### 10. DERIVATIVES (continued)

#### 10.1 Nature/type of derivatives held (continued)

##### b) Options (Wa'ad Fx)

Foreign exchange options are transactions, whereby a client, in consideration for the payment of a fee agrees to enter into one or a series of trades in which one party (promisor) gives a commitment as a unilateral undertaking, to a second party (promisee).

An option can be a unilateral promise or combination of promises. The Group enters into the option depending on the client's risk profile, whereby the client may promise to buy, sell or buy and sell a currency with or without conditions for hedging its exposure.

#### 10.2 Purpose of derivatives

##### a) Held for trading purposes

Most of the Group's derivative trading activities relate to sales, positioning and arbitrage. Sales activities involve offering products to customers in order, to enable them to transfer, modify or reduce current and future risks. Positioning involves managing market risk positions with the expectation of profiting from favourable movements in prices, rates or indices. Arbitrage involves identifying, with the expectation of profiting from, price differentials between markets or products.

##### b) Held for hedging purposes

The Group uses Shari'ah compliant derivatives for hedging purposes in order to reduce its exposure to commission rate risk and foreign exchange risk.

The Group has adopted a comprehensive system for the measurement and management of risk. Part of the risk management process involves managing the Group's exposure to fluctuations in foreign exchange and commission rates to reduce its exposure to currency and commission rate risks to acceptable levels as determined by the Board of Directors within the guidelines issued by SAMA.

As part of its financial asset and liability management, the Group uses derivatives for hedging purposes in order to adjust its own exposure to currency and commission rate risk. This is generally achieved by hedging specific transactions.

#### b) Held for hedging purposes (continued)

##### Cash flow hedges

The Group is exposed to variability in future commission cash flows on non-trading assets and liabilities which bear commission at a variable rate. The Group uses commission rate swaps as cash flow hedges of these commission rate risks.

The (losses) / gains on cash flow hedges reclassified to the interim condensed consolidated statement of income during the period are as follows:

	<b>30 June 2019 <u>SR'000</u></b>	30 June 2018 <u>SR'000</u>
Special commission income	935	1,155
Special commission expense	<u>(1,040)</u>	<u>(1,237)</u>
Net losses on cash flow hedges reclassified to the interim condensed consolidated statement of income	<u>(105)</u>	<u>(82)</u>

The cash flow hedges of special commission rate swap were highly effective in offsetting the variability of special commission expenses.

During the prior periods, the Bank sold certain of its special commission rate swaps used for cash flows hedges. However, the gain / (loss) would continue to be classified in interim condensed consolidated statement of comprehensive income as the related hedge items are still outstanding. In accordance with the IFRS requirements, the gain / (loss) will be reclassified to interim condensed consolidated statement of income in the period when the cash flows pertaining to hedged items will affect the interim condensed consolidated statement of income.

### 10. DERIVATIVES (continued)

The table below summarize the positive and negative fair values of the Group's derivative financial instruments, together with their notional amounts. The notional amounts, which provide an indication of the volume of transactions outstanding at the end of the period, do not necessarily reflect the amounts of future cash flows involved. These notional amounts, therefore, are neither indicative of the Group's exposure to credit risk, which is generally limited to the positive fair value of the derivatives, nor market risk.

## NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) AT 30 JUNE 2019 (CONTINUED)

### 10. DERIVATIVES (continued)

Pursuant to changes in certain international laws, the Bank has established a Special Purpose Vehicle (SPV) namely Al Jazira Securities Limited and intends to transfer all of its PRS derivatives, hedged or traded, to this SPV. In this connection, initially, a novation agreement has been signed among the Bank, the SPV and one of the counter party. Going forward, the SPV will execute all the derivatives with counterparties with a back to back transaction with the Bank. As the change was necessitated by laws, management believe that existing hedging relationships continue to be effective.

### 11. SUBORDINATED SUKUK

On 2 June 2016, the Bank issued 2,000 Subordinated Sukuk Certificates (Sukuk) of SR 1 million each, with a profit distribution rate based on 6 month Saudi Inter-Bank Offered Rate (SIBOR), reset semi-annually in advance, plus a margin of 190 basis point per annum and payable semi-annually in arrears on 2 June and 2 December each year until 2 June 2026, on which date the Sukuk will expire. The Bank has a call option which can be exercised on or after 2 June 2021 on meeting certain conditions and as per the terms mentioned in the related offering circular. The Sukuk may also be called upon occurrence of certain other conditions as per the terms specified in the offering circular. These Sukuk are registered with Saudi Stock Exchange (Tadawul).

### 12. SHARE CAPITAL AND EARNINGS PER SHARE

The authorized, issued and fully paid share capital of the Bank consists of 820 million shares of SR 10 each (31 December 2018: 820 million shares of SR 10 each and 30 June 2018: 820 million shares of SR 10 each).

The shareholders of the Bank in their Extra Ordinary General Assembly meeting held on 19 March 2018 (corresponding to 2 Rajab 1439H), approved the increase in number of shares of the Bank from 520 million shares to 820 million shares through a rights issue of 300 million shares at an exercise price of SR 10 per share amounting to SR 3,000 million. During the second quarter of financial year 2018, the Bank, after completing all legal formalities issued the rights shares.

Basic earnings per share for the current and prior period is calculated by dividing the net income for the period attributable to equity holders of the Bank by the weighted average number of ordinary shares outstanding. The weighted average number of shares for comparative periods have been adjusted to reflect the increase in the Bank's capital due to right issue.

### 14. COMMITMENTS AND CONTINGENCIES (continued)

- c) During 2018, the Bank reached a Settlement Agreement (the “Agreement”) with the GAZT to comply with the directives provided by Royal Decree No. (26/M) dated 20 Rabi Al-Awaal 1440 H (28 November 2018) and the Ministerial Resolution No. 1260 dated 5 Rabi Al-Thani 1440 H (12 December 2018), in order to settle outstanding Zakat liabilities for the years from 2006 to 2017 against a full and final payment of SR 551 million, payable in 6 instalments over a period of 5 years ending 1 December 2023. The Bank paid the first instalment of SR 110 million during the month of December 2018. Under the Agreement, the Bank and GAZT also agreed to settle Zakat for the year 2018 in accordance with the settlement framework provided by the Royal Decree and the Ministerial Resolution. As a result of the Agreement, all Zakat related disputes between the Bank and the GAZT pertaining to the years 2006 to 2017 stand resolved.

The Bank will continue to contest its appeals before the Appellate Committee for Resolution of Tax Disputes and Violations for the years 2006 through 2011. The Bank is confident of a favourable outcome from the appeal process.

The Bank has filed its Zakat and income tax returns with the GAZT and paid Zakat and income tax for the years up to and including the year 2018, except for the amounts agreed as a liability under the Agreement which will be paid to GAZT as and when they fall due.

### 16. OPERATING SEGMENTS

The operating segments have been identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker (Chief Executive Officer) in order to allocate resources to the segments and to assess their performance.

All of the Group's operations are based in the Kingdom of Saudi Arabia, except AlJazira Securities Limited (SPV).

Transactions between the operating segments are on normal commercial terms and conditions. The revenue from external parties reported to the chief operating decision maker is measured in a manner consistent with that in the interim condensed consolidated statement of income. Segment assets and liabilities comprise operating assets and liabilities.

There have been no changes to the basis of segmentation or the measurement basis for the segment profit or loss since 31 December 2018.

For management purposes, the Group is organized into following main operating segments:

#### **Personal banking**

Deposit, credit and investment products for individuals.

#### **Corporate banking**

Loans, deposits and other credit products for corporate, small to medium sized businesses and institutional customers.

#### **Treasury**

Treasury includes money market, foreign exchange, trading and treasury services.

#### **Brokerage and asset management**

Provides shares brokerage services to customers (this segment includes the activities of the Bank's subsidiary AlJazira Capital Company).

## NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) AT 30 JUNE 2019 (CONTINUED)

### 17. FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its non-performance risk.

#### Determination of fair value and fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments:

- Level 1: quoted prices in active markets for the same or identical instrument that an entity can access at the measurement date,  
Level 2: quoted prices in active markets for similar assets and liabilities or other valuation techniques for which all significant inputs are based on observable market data, and  
Level 3: valuation techniques for which any significant input is not based on observable market data.

- a) The following table presents the Group's financial assets and liabilities that are measured at fair values:

Fair value of quoted investments is based on price quoted on the reporting date. Level 2 trading and hedging derivatives comprise foreign exchange, options, profit rate swaps and structured deposits. These foreign exchange contracts have been fair valued using forward exchange rates that are quoted in an active market. Profit rate swaps, options and structured deposits are fair valued using forward profit rates extracted from observable yield curves. The effects of discounting are generally insignificant for Level 2 derivatives.

There were no transfers between Levels 1 and 2 during the year. New investments acquired during the year are classified under the relevant levels. There were no financial assets or financial liabilities classified under level 3.

There were no changes in valuation techniques during the period.

Investments amounting to SR 4.89 million (31 December 2018: SR 4.89 million and 30 June 2018: SR 4.33 million) are carried at cost and, accordingly, are not fair valued.

### 18. CAPITAL ADEQUACY

The Group's objectives when managing capital are to comply with the capital requirements set by SAMA to safeguard the Group's ability to continue as a going concern and to maintain a strong capital base.

Capital adequacy and the use of regulatory capital are monitored on a periodic basis by the Bank's management. SAMA requires holding the minimum level of the regulatory capital and maintaining a ratio of total eligible capital to the risk-weighted assets at or above the agreed minimum of 8%.

The Group monitors the adequacy of its capital using ratios established by SAMA. These ratios measure capital adequacy by comparing the Group's eligible capital with its consolidated statement of financial position assets, commitments and notional amount of derivatives at a weighted amount to reflect their relative risk.

The following table summarizes the Group's Pillar-I Risk Weighted Assets ("RWA"), Tier I and Tier II Capital and Capital Adequacy Ratios:
